A Library that helps to trim Audio Files in Android This is a simple Android Library that trims audio file by seconds. I was in search for one but ended up with no luck. Page 2 You can't perform that action at this time. It works with AAC / MP3 / WAV / AMR USAGE : CheapSoundFile cheapSoundFile = CheapSoundFile.create(in\_file\_path,listener); int mSampleRate = cheapSoundFile.getSampleRate(); int mSamplesPerFrame = cheapSoundFile.getSamplesPerFrame(); int startFrame = Utilities.secondsToFrames(30.0, mSampleRate, mSamplesPerFrame); int endFrame = Utilities.secondsToFrames(50.0, mSampleRate, mSamplesPerFrame); cheapSoundFile.WriteFile(outfile\_path, startFrame, endFrame-startFrame); final CheapSoundFile.ProgressListener listener = new CheapSoundFile.ProgressListener() { public boolean reportProgress(double frac) { return true; } }; You can't perform that action at this time. Add a description, image, and links to the trimmer topic page so that developers can more easily learn about it. You signed in with another tab or window. You can't perform that action at this time.
